## Biobank and Study support

### Biobank Services

Biobank application - other studies	Newly collected samples	Existing samples
Biobank application (Academic)*	0 kr	0 kr
- Preview	0 kr	0 kr
- Application for alteration/MTA	0 kr	0 kr
- Biobank application that is dismissed**	0 kr	0 kr
Biobank application (Commercial sponsor)	4900 kr	4900 kr
- Preview	2500 kr	2500 kr
- Application for alteration/MTA	2500 kr	2500 kr
- Biobank application that is dismissed**	2500 kr	2500 kr
Biobank application signed according to Multi centre principle		
- Preview	2500 kr	2500 kr
- Application for alteration/MTA	2500 kr	2500 kr
Biobank application for clinical trials price per study (unless otherwise stated)	Newly collected samples	Existing samples
Counseling before biobank application	0 kr	0 kr
New biobank application (valid and assessed)	9000 kr	12 500 kr
New biobank application that is cancelled** before application of clinical trial is valid	0 kr	0 kr
New biobank application that is cancelled** after application of clinical trial is valid	4500 kr	6250 kr
Application for alteration	4500 kr	6250 kr
Administrative application for alteration which is not assessed	1400 kr	1400 kr
Transfer of biobank agreement (after the trial has been transferred to CTR)	0 kr	0 kr
Decision incl. handling (cost per biobank agreement)	1400 kr	1400 kr

## Biobank and Study support

### Biobank Services

#### Courses/Education

Ordered lectures	5500 kr
------------------	---------

### Study Coordinator Lab

#### Study coordination

Start-up cost for study, 10h (Services included: advisory service, logistics planning, internal coordination, price estimate and establishment of agreement)	10 500 kr
---	-----------

Time fee for study (For additional project time being added)	1050 kr/per hour
---	------------------

Referral design (Study specific paper referrals for sampling and sample handling)	1050 kr/per hour
--	------------------

List of samples (List of samples for batch analysis)	1050 kr/per hour
---	------------------

Analysis report (Compiled analysis laboratory data reports)	1050 kr/per hour
---	------------------

Laboratory medical analysis	see karolinska.se (use QR-code)
-----------------------------	---------------------------------

### Study Center Laboratory Medicine

#### Collection of samples healthcare integrated biobanking (PreBio)

#### Price/primary tube

Serum with gel 5 ml	Max 8 aliquots x 200 µl REMP	132,25 kr
---------------------	------------------------------	-----------

Serum without gel 5 ml	Max 8 aliquots x 200 µl REMP	132,25 kr
------------------------	------------------------------	-----------

Serum without gel 10 ml	Max 16 aliquots x 200 µl REMP	150,68 kr
-------------------------	-------------------------------	-----------

EDTA, plasma 5 ml	Max 8 aliquots x 200 µl REMP	132,25 kr
-------------------	------------------------------	-----------

EDTA, plasma 10 ml	Max 16 aliquots x 200 µl REMP	150,68 kr
--------------------	-------------------------------	-----------

EDTA, Whole blood (to DNA extraction) 5 ml	Primary tube	43,36 kr
--	--------------	----------

# Biobank and Study support

## Study Center Laboratory Medicine, cont.

Collection of samples healthcare integrated biobanking (PreBio)		Price/Primary tube
LiHep, plasma (with gel)	Max 8 aliquots x 200 µl REMP	132,25 kr
NaHep, plasma 5 ml	Max 8 aliquots x 200 µl REMP	132,25 kr
Citrat, plasma 5 ml	Max 8 alikvoter x 100- 200 µl REMP	132,25 kr
Urine 10 ml	Max 16 aliquots x 200 µl REMP	150,68 kr
RNA PAXgene (Whole blood) 10 ml	Primary tube	102,98 kr
RNA tempus (Whole blood) 10 ml	Primary tube	43,36 kr
Feces	Primary tube	65,04 kr
Saliva	Primary tube	65,04 kr
Withdrawal of samples collected through Healthcare Integrated Biobanking (PreBio)		Price
Withdrawal of aliquots***	Per aliquot	20 kr ***
Withdrawal of primary tubes***	Per sample	20 kr ***
Administrative handling of withdrawal order	Per hour	1050 kr
Healthcare Integrated Biobanking (PreBio) - additional services		Price
Education	Per hour	1050 kr
Producing reports	Per hour	1050 kr

## Biobank and Study support

### Study Center Laboratory Medicine, cont.

#### Study Center Laboratory - storage of samples

#### Price

Microtube, REMP 200 µl	Per year of sample storage, per received sample	0,49 kr/aliquot
Primary tube ≤ 5ml (for example whole blood for DNA extraction)	Per year of sample storage, per received sample	3 kr/tube
Primary tube > 5 ml (for example. Feces, Saliva)	Per year of sample storage, per received sample	6 kr/tube
Cryo tube, ≤ 2 ml	Per year of sample storage, per received sample	1,30 kr/tube

#### Study Center Laboratory- temporary storage of study samples

#### Price

Batch storage of samples	Per year of sample storage, per received sample	29kr/Parent sample
--------------------------	---	--------------------

#### Study Center Lab - manual handling of study samples

#### Price

Sample handling level 1	72,63 kr
Sample handling level 2	99,73 kr
Sample handling level 3	179,94 kr
Sample handling level 4	359,89 kr
Sample handling level 5	539,83 kr
Leukocytes, isolation of PBMC	1207,87 kr

## Biobank and Study support

### Study Center Laboratory Medicine, cont.

Study Center Lab - additional services	Price
Label printing	2,17 kr
List of samples for batch analysis	1050 kr
Referral printing	8,74 kr
Box for sample transport	111,78 kr

**All prices are VAT exclusive**

### Clarifications

\* = If the study is academic but at the same time is a clinical trial, then the price of the study is based on the price for clinical trials.

\*\* = The biobank application will be dismissed if the clinical trial/performance study application is withdrawn, relapsed, or rejected.

\*\*\* = price includes cost for materials, dry ice and internal transports between collecting sites. Please observe that withdrawals of the first 1000 aliquots costs 20 kr per aliquot. For additional withdrawals of aliquots (after the first 1000), the cost is reduced to 15 kr per aliquot withdrawal.
